# Quick help guide

Hi there. This is a quick help guide just incase you've come unstuck and need to re-check where the cables go. These systems may look a little scary but they are very easy to use! Just follow these quick steps and you'll be back into the swing of things in no time!

- 1 First things first. Ensure all the equipment is turned off before connecting cables and plugs and also check that the volume buttons are turned down!
- 2 Next, ensure the amp power cable is connected from the back of the amp to the wall socket.
- 3 Ensure the speaker cable is connected from the amp (parallel speaker outlet) to the speaker IN plug on the back of the speaker. Right, now the amp is set up.
- 4 Now for the karaoke player. Make sure the power cord for the karaoke player is connected to the wall socket.
- 5 You will see on the amp, there is a CH 4 with a cable coming out the front of the unit. This cable connects to the back of the karaoke player. Ensure this cable is plugged into the slots 2CH (ML & MR). Please refer to diagram.
- 6 To get visual on the TV screen, ensure the yellow cable is plugged into the back of the TV in the Video input slot and the back of the karaoke player in the video channel socket.
- 7 Lastly, the microphones. You will have 2 mics. Plug one into the CH1 slot and the other into the CH2 slot.
- 8 These systems either have 4 or 10 channels which means you can individually control the volume of each channel. You will also see a master control which controls the channels on an overall basis. Giving you great freedom to play and explore!
- 9 Once all these steps are taken, and all cables and plugs are connected, turn on power at the wall socket then proceed to turn on the amp first, then follow with the karaoke player and the tv. All systems go!!

## Karaoke Song Disc 3
